TO THE LADIES

DO AND DARE.

BY MARVIN POND.

Do, and dare to do whatever thou desire.
"Evil be to him that evil thinketh," is a motto higher
Than the low, blinking, winking, stinking,
Thinking of those that "equal" of mine.

Dost thou love? Love on like Heaven; and
as sure as thou wilt, Love on like Heaven;
Love, and worship her thou lovest, even till
The latest breath of life thou wilt
Shall be wafted from thy bosom, and then
Love her after death.

Dost thou long for something better? Long-
ing still.
With thy greater strength pursue it. Thou
shalt conquer if thou wilt
Sitting still and begging war, never yet has
been a mill.

Turn the stones upon the hillside; pack the
courses' way.
Dare the gorge, and thou shalt find that the
waters stay.
Stay and gather in the background, for thy
useful way.

Riches wouldst thou have? Chase and find
them in the end.
Everything on earth is fated to man's fierce
will to have.
Let the gaps and tiny fissures be thy first
great care to mend.

Be the leaking waters gathered, there will be
enough to flow.
Be the wasted course preserved, never hungry
shalt thou go.

Be the drops of time improved, many maxims
shalt thou know.

Wise is he that saith always, yet is careful
how he give.
Be not stingy as the miser, that nor lives nor
lets to live.
But, waste not a thing thou ownest; even
scraps are good to give.
When a man owns enough, he'll thank thee
tho' the alms be small.
In the often wasted dribble may be found a
mile for all.

General Items.

Judge Jeremiah S. Black has written a letter to the Pittsburg Post declining to be considered a candidate for the Presidency.

The Ogden Freeman says the Union Pacific has reduced the fare from Ogden to Omaha to \$116.25 for the round trip. The old price was \$135.

Now that Governor Ames is out of the way, the State tax rate on Mississippi for this year shows a reduction from \$0.25 to \$0.50 per \$1,000.

The San Francisco Criminal Court gave the wife-beater, Moreno, one thousand days in the county jail, or the alternative of paying one thousand dollars.

The first artesian well was sunk at Athens by Archimedes, to supply that city with water during a siege. The first Cornish pumping engine was also constructed by Archimedes.

The workmen engaged in digging the foundation for the International Hotel on C street, Virginia City, struck gold plates the other day. One of the laborers found an ounce nugget.

The colored people of the Philadelphia Centennial are expressing some dissatisfaction because some of the more noted of their class were not invited to seats on the platform on the opening day.

The Committee on Rules have agreed to report that Pittsburgh is an improved person, to be doorkeeper of the House, and will recommend that the office of Sergeant-at-Arms and Doorkeeper be consolidated.

An epidemic of small pox is feared in San Francisco. Several cases of the disease have been discovered by the authorities, and the last Collier steamer from China was impregnated with the seeds of the pestilence.

The Board of Trustees of Napa have pronounced cottonwood trees a nuisance, and all persons owning property within the city limits in front of which are the above trees are required to remove the same within ten days.

The consumption of eggs in the manufacture of cotton is almost incredible. No alumina is equal to that contained in an egg—and it consumes the lay of 300,000 hens to supply one of the large calico manufacturers in France.

The New York Sun thinks the Cameron movement means this. A ticket with Connelley and Bristow. This arrangement will keep Bristow away where he can exercise the spirit of reform with all his might, but be perfectly powerless.

Napa Collegiate Institute proposes a Centennial College Hall, to be built on the corner of the school year, 1876-7. Plans are being drawn by Wright & Saunders. The building is to be two stories high, 80x90 feet on the ground, and cost \$25,000.

A clothing firm in Chicago have introduced a machine for cutting garments. It cuts at one time a half a dozen thicknesses of heavy cloth, to four dozen thicknesses of cotton goods. One man readily cuts two hundred and fifty suits a day.

A physician claims to have found a remedy for dysentery, by which he can cure ninety-nine cases out of every one hundred. The remedy is the simple use of rye whiskey, given in large quantities, and in a summer place with great ceremony, and in a summer place with great ceremony, and in a summer place with great ceremony.

Nearly all the Chinamen arrested for misdemeanor in San Francisco, and sentenced by the Police Judge, pay the fines imposed. They are afraid to go to the County Jail for fear that the order requiring the sheriff to cut off the hair of prisoners will be enforced, and that they will thereby lose their queues.

The Colusa Sun estimates the wheat sown in the county this year at 550,000 acres, or 320,000 acres. The average yield, if we have no set-backs, may safely be placed at twenty-five bushels. This would give 8,000,000 bushels—400,000,000 pounds—240,000 tons. This would require a fleet of 200 ordinary ships to carry it across the ocean.

A dispatch from Morrisania, New Jersey, says: "A terrific storm prevailed from five o'clock this evening, during which hail-stones as large as hen's eggs fell in abundance, totally destroying the glass in greenhouses in the vicinity and damaging the church, store and house windows. Many gardens were ruined and fruit utterly destroyed."

A dispatch from Salomon, Turkey, states that the Porte has redressed the recent outrage by the execution of six of the assassins. The funeral of the murdered Consul took place with great ceremony, and in a manner satisfactory to every one. A Paris dispatch says it is expected that the widows of the murdered Consuls will each receive \$200,000 indemnity.

Should a ship canal be cut across the Isthmus of Darien at its narrowest point, it would be thirty-two miles long, and would require a ship tunnel 122 feet high and seven miles in length through solid rock. A vessel going from New York to San Francisco would save 10,000 miles of sailing, and could afford to pay a toll of \$5,000. In the one time of wages, a clipper ship of 1,500 tons burden would save \$2,400 at least. It is estimated that the work will cost \$100,000,000.
